

Implementing the Use of School Buses for Cleaner Air in NCR

Better2Bus by Abhiveer Qulati |
Vasant Valley School

Our City Needs Help!

The Problem

Our National Capital Region has some of the dirtiest air in the world. Too many cars on the road create harmful pollution that makes it hard to breathe.

Every day, millions of vehicles release invisible harmful gases into our air. It's like putting a blanket over our city!

Why Too Many Cars Hurt Our Air

Bad Gases

Cars release harmful gases that make the air dirty and unhealthy to breathe

Traffic Jams

When cars sit in traffic, they keep polluting without moving forward

More Cars = More Pollution

Every car adds to the problem. The more cars we have, the dirtier our air becomes

The Amazing School Bus Solution!

One Big Bus

Holds 50+ students

Replaces Many Cars

Instead of 25 separate cars

Cleaner Air

Less pollution for everyone

How Buses Make Our Air Cleaner

01

Students Ride Together

Instead of 25 cars bringing 25 kids, one bus brings everyone at once

02

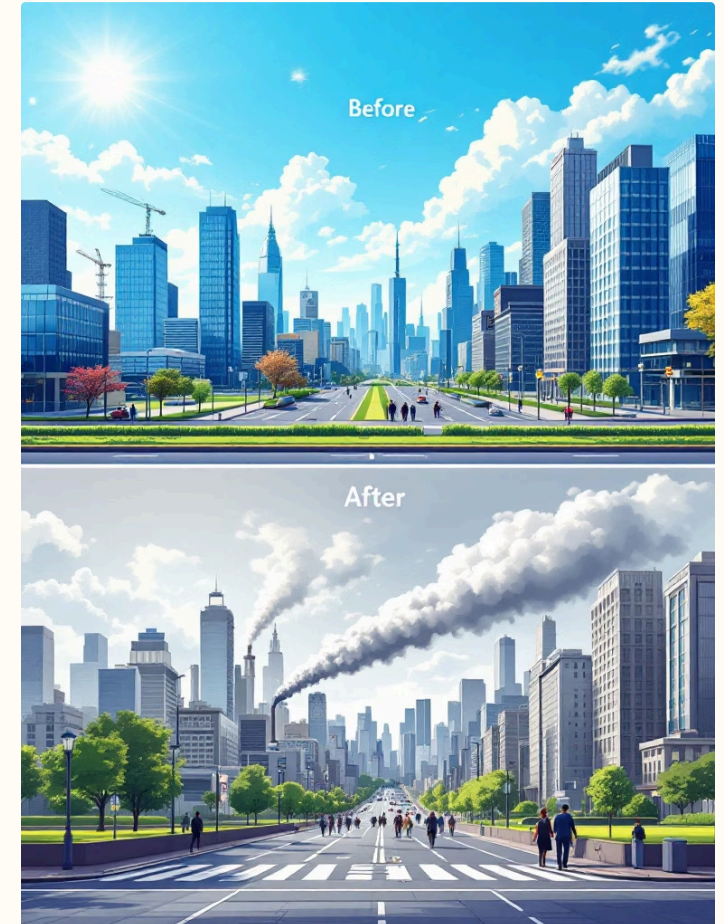

Fewer Cars on the Road

Less traffic means less pollution being released into the air

03

Cleaner Air for Everyone

Better air quality helps all living things in our city breathe easier

Amazing Benefits for Students!

Make New Friends

Chat and laugh with classmates on the fun bus ride

Get More Rest

Use travel time to read, study, or even nap before school

Safer Than Cars

Professional drivers and safety features keep you protected

Great Perks for Schools & Parents

1

Less Parking Stress

No more crowded parking lots and morning chaos. Everything runs smoothly!

2

Saves Money

Parents save on gas, parking, and car maintenance costs every month

3

Healthier Students

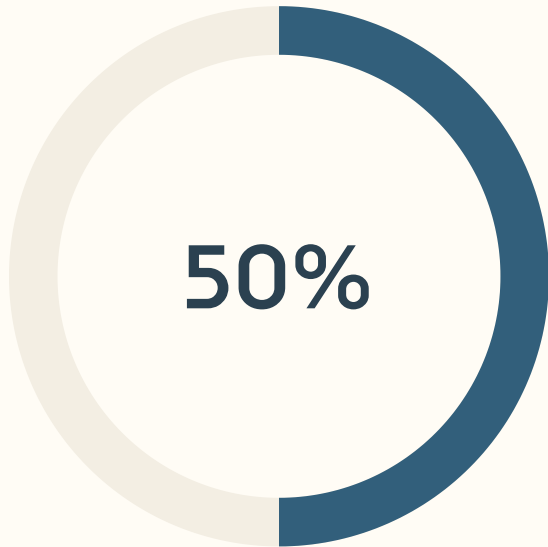

Cleaner air means fewer sick days and happier, more focused learners

4

Better Traffic Flow

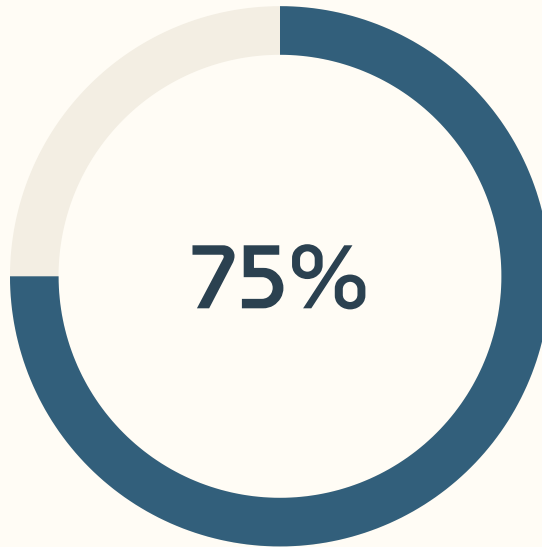

Less congestion near school means safer streets for everyone

Clean Air = Healthy, Happy Kids

Fewer Asthma Attacks

Better air quality reduces breathing problems

Better Focus

Clean air helps students concentrate in class

Healthier Future

Protecting lungs now prevents problems later

When we breathe cleaner air, our lungs stay healthy and strong. Students can run faster, play longer, and learn better when the air around them is clean!

Let's Make a Difference Together!

Students

Ask your parents to enroll in school bus service

Parents

Sign up for school bus programs and spread the word

Schools

Invest in safe, reliable bus services for all students

Choose the Bus!

- One bus is better than 25 cars
- Cleaner air for our city
- Healthier kids, brighter future

Join the **Better2Bus** movement today. Together, we can create a cleaner, healthier NCR for all our children!
