Dear Abhiyeer

It has been a pleasure working with you on the mask production initiative for the Nizamuddin Basti community and to spread awareness regarding the air pollution crisis.

On behalf of the team, I would like to sincerely acknowledge and appreciate your support in taking this forward. As discussed, raising funds for the production and distribution of masks has been crucial in preparation for the air pollution challenges in NCR. Your proactive involvement has helped to ensure that the initiative remains timely and impactful.

We are grateful for your collaboration with Chintan's Learning Centre at Nizamuddin and your work with Mohammed, our Youth Leader. It is encouraging to see the collaborative spirit in action, especially with the sewing machines, accessories, scissors, and cloth pieces for the DIY masks for the Nizamuddin community.

The mask project where you and Mohammed worked together to measure, cut, and stitch masks for the community, marks a promising and motivating journey to protect this community. This hands-on approach and collaboration set a strong foundation for training community members and engaging them in mask production for wider distribution to combat the deadly impact of air pollution.

We truly value your commitment to strengthening community-led solutions and look forward to taking this initiative ahead together.

Regards,
Bhavleen
